## & Custom Edge-to-Edge Walking Foot Quilting

I am happy to have you join me in this two-part class.

**Day 1 – Pixel Perfect** - You will learn time saving and accuracy techniques in putting together a pixel quilt. You will be making a 3-colour, 10-pixel x 10-pixel design that finishes at 40" x 40"; a nice size for a baby quilt, lap quilt, or wall quilt. You will also learn my fool proof way to keep all those seams lying in the right direction while pin basting the quilt to ready it for quilting. The techniques you learn in this class are sure to help you with all your future patchwork projects no matter your level of experience. Whether you are a beginner or a seasoned quilter, you are sure to learn some techniques to improve your quilting.

**Day 2 – Custom Edge-to-Edge Walking Foot Quilting** Do you dislike burying threads? By quilting from edge-to-edge, unless your bobbin runs out or your thread breaks, you will not have to bury any threads. But quilting from edge-to-edge doesn't mean you are limited to straight lines or following the same pattern throughout the quilt. In Day 2 you will plan your design and quilt your quilt with minimal marking. You will be using 12wt thread so the quilting will create not only texture, but design on your fabric.
