

# Planning your Walking Foot Quilting – Virtual Class

A class by Melissa Marginet

Planning before you quilt creates success. During our day together we will look at many ways to quilt our quilts from quick all over designs to custom quilting. Regardless of how you decide to quilt your quilt, we will focus on quilting edge-to-edge so that we won't have to bury threads or manoeuvre our quilt excessively under our sewing machines. This day will be spent with paper and pencil.

Bring as many of the following items as you have. (No need to purchase anything at this time.)

- **Graph paper** – ¼” graph paper.
- **Notebook**
- **Pencils** – also bring a sharpener for regular pencils or extra led for your mechanical pencils
- **Eraser**
- **Coloured pencils or fine coloured markers**
- **Tracing paper** – parchment or onion skin
- **Page protectors** – one or two
- **Fine dry erase marker(s)**
- **Dry erase brush**
- **Stencils**
- **Straight edge** – 12” school ruler or 12” narrow quilting ruler
- **Patterns/Quilt pictures** – Please email pictures of the quilts you will be planning the quilting for to [marginet@live.ca](mailto:marginet@live.ca) at least 1 week prior to class and indicate the date of the class in the email.

If you like to work with computers, you can bring one of the following:

- **Laptop** – along with a cord to transfer pictures from your phone or camera. Also have any photos you want to work on loaded on the laptop prior to class.
- **iPad/Tablet** – photos you want to work on loaded on the device.

**Edge-to-Edge Walking Foot Quilting Designs** is required for the class. If you have my first book, **Walking Foot Quilting Designs** please have it handy as well. Books are available at [www.melissamarginet.ca](http://www.melissamarginet.ca)
